Groww Product Insights — Weekly Log

TEST ENTRY — Groww Product Insights
Purpose: Verify the document append workflow.
Status: Test only; not the final product pulse.
Date: October 14, 2026

GROWW WEEKLY PRODUCT PULSE

Report ID: GROWW_PULSE_2026-10-14
Updated: October 16, 2026

REVIEW PERIOD AND DATA

September 13–October 12, 2026
Total public reviews analyzed: 2,963

TOP CUSTOMER THEMES — PRELIMINARY

1. App reliability and data accuracy
Keyword matches: 115; low-rated matches: 64.
Reviewers mention outdated charts and chart-data freshness concerns.

2. Customer support and resolution
Keyword matches: 98; low-rated matches: 81.
Reviewers mention slow responses and unresolved issues.

3. Transactions and account operations
Keyword matches: 43; low-rated matches: 30.
Reviewers mention withdrawal delays and account-operation problems.

ADDITIONAL THEMES

4. Fees and charge transparency
Keyword matches: 83; low-rated matches: 50.
Reviews express varied views about brokerage, DP/CDSL charges, and other deductions.

5. Usability and feature requests
Keyword matches: 243; low-rated matches: 67.
Reviewers mention interface changes, feature requests, and workflow improvements.

KEY OBSERVATION

Customer-support matches have the highest proportion of low-rated reviews. Feedback also raises concerns about chart freshness, withdrawal delays, and understanding different trading charges. These are preliminary keyword-based signals, not manually verified unique complaints. Categories can overlap.

THREE CUSTOMER QUOTES

App reliability — 1 star, September 13:
"many charts are not updated regularly"

Customer support — 1 star, September 14:
"worst app. Application not working in my phone. even after several complaints they didn't resolve my issue"

Fee transparency — 1 star, September 14:
"F U groww Bloody cheaters First they give out MF prime feature as free with hidden charges now they changed to more commission hence TER changed more than 0.6%"

RECOMMENDED ACTIONS

1. Audit chart-data freshness and investigate reports of outdated charts.
2. Review support response times and escalation of unresolved withdrawal and account cases.
3. Improve the visibility of order status, applicable transaction charges, and fee explanations in the app.

CUSTOMER FEE EXPLAINER — BROKERAGE, DP AND OTHER CHARGES

Customer reviews raise questions about brokerage, DP/CDSL charges, and exchange transaction charges. These are distinct components of trading costs.

• Brokerage: A fee charged for executing a trade; applicable rates depend on the product and current pricing terms.
• DP charges: Depository participant-related charges that may apply when shares are sold from a demat account.
• Exchange transaction charges: Charges associated with transactions on the relevant exchange.
• Other statutory charges: Depending on the transaction, costs may include STT, stamp duty, SEBI turnover charges, and GST.
• How to verify a deduction: Review the transaction charge breakdown and contract note, then compare the items with Groww's current pricing information.
• If a charge is unclear: Contact Groww support with the transaction details rather than assuming a deduction is incorrect.

OFFICIAL SOURCES

Groww fees:
https://groww.in/help/payments-%26-withdrawals/payments-charges/what-fees-does-groww-charge--58

Groww DP charges:

Last checked: October 16, 2026. Verify current pricing terms before publication.

LIMITATIONS

The dataset covers approximately one month, not the full 8–12-week target. Keyword categories overlap, and counts are preliminary matches rather than manually verified unique complaint counts. Quotes are excerpts from collected reviews.

END OF REPORT

TEST ENTRY — Approval workflow verification on 2026-10-16. This is a temporary test entry.
